

First Batch of International TOP TENs List

List of Top Ten Energy Efficiency Best Practices (BPs)

No.	BP Title	Nominator
1	Energy conservation in the refining and chemical industries	China
2	Energy Just In Time (JIT) activities	Japan
3	Energy saving in a gigawatt-scale coal-fired generation unit	China
4	Zero-energy office building practices	China
5	Flight planning	Australia
6	Optimising generator controls	Australia
7	Promoting energy conservation and peak load control for factories	Japan
8	Integrating LNG cold energy into an ethylene plant	Japan
9	Reducing idle running in manufacturing	Australia
10	Using low-temperature industrial waste heat for district heating	China

Note: the list is alphabetically ordered.
