

List of Top Ten Energy Efficiency Best Practices (BPs)

Building Sector

No.	BP Title	Nominator
1	Application case of the whole-process management of near-zero energy of No. 9 building of Shanghai Hongqiao State Guest Hotel	China
2	Case of Guangzhou White Swan Hotel energy saving reconstruction	China
3	China Academy of Building Research nearly zero energy building	China
4	Energy conservation activities at a next-generation green hospital	Japan
5	Energy conservation in the distribution of procured building products	Japan
6	Passive house technology center of Sino-German Ecopark	China
7	Promotion of super energy-saving construction by achieving "Japan's first urban-style Zero Energy Building (ZEB)"	Japan
8	Life-cycle management of energy efficiency target-"Joy City"project in Chengdu	China
9	University-wide efforts to build a smart campus	Japan
10	Zhuhai Singyes renewable energy R&D building	China

Note: the list is alphabetically ordered.
