

List of Top Ten Energy Efficiency Best Practices (BPs)

Industrial Sector

No.	BP Title	Nominator
1	Cooking of food products using Micro-waves	France
2	ECO activities to actualize "Visualization(energy audit)"and "Optimization" using EQS-AD10 (Environmental Andon System)	Japan
3	Energy Management System Construction Case	China
4	Energy-saving practical case through centralized management and control by Yanggu Xiangguang Copper	China
5	High frequencies for gelation of PVC coverings	France
6	High frequency sticking of composite products	France
7	Promotion of energy conservation by circle activities at a paperboard manufacturing plant	Japan
8	Reducing CO ₂ emissions in the supply chain	Japan
9	Reduction of base-load energy usage	Japan
10	Shagang Group 2500kW dust exhausting fan energy-saving reconstruction project	China

Note: the list is alphabetically ordered.
